This two bedroom, two bath getaway features premium furniture and tasteful country decor. There's a screened porch for afternoon happy hours, and you'll rest comfortably in your choice of a queen bed downstairs or twin beds upstairs.

A Sylvan Oasis

At The Back Forty, you don't have to be indoors to experience the privacy you need to truly unwind. Your nearest neighbor? More than a mile away. The views? One features spectacular mature forests. The next highlights the tranquil, landscaped outdoor seating area. Yet another offers a glimpse of the abundant wildlife. Here you will find a secluded, romantic, quiet place that affords unbelievable evenings sitting next to a waterfall, watching the fire crackle against the backdrop of wildlife.
